- Macedonian

Personal Interests

- Running (Half Marathons)
- Fitness & Swimming
- Photography

Professional summary

CX/UI designer with 3.5 years of experience in a marketing tech agency, working on recruitment and e-commerce websites for small to mid-sized clients. My work focuses on improving conversions and overall website performance. I'm organised, detail-oriented, and comfortable managing multiple projects at once. I collaborate closely with CRO specialists, marketing, and engineering teams and enjoy working in international and multicultural environments.

Experience

Small Giants - Marketing Tech Agency, Utrecht | UX/UI Designer

September 2022 - January 2026

- Led projects from early concepts and ideation through to final design handoff for development.
- Design and deliver end-to-end UX solutions, including user flows, prototypes, and UI designs with a strong focus on conversion optimisation, usability, and commercial impact.
- Worked with the CRO team on A/B test ideas and designed the test variants.
- Handled content migration for client projects by transferring, organising, and maintaining content within Storyblok CMS.
- Worked directly with clients like Philips, Talpa Network to improve and refine their designs based on goals and feedback.
- Designed landing pages and social ads for Sthree
- Building a design system that standardises UI patterns to improve design speed, scalability, cross-functional alignment, and consistency across internal projects.
- Identified bugs and usability issues and worked with developers to improve the user experience.
- Collaborating closely with marketing, CRO, other designers and engineering to align UX/UI decisions with project goals.
- Delivering production-ready designs to development team

Education

UX/UI ACADEMY BRAINSTER, Skopje, North Macedonia
